Top European Award

(created by [Global Village](#) in partnership with [Magic Lantern Productions](#))

*The South East England Development Agency's (SEEDA)
[SEEOne Broadband Community Self Help Portal](#)
has won*

Europe's [GUIDE Award](#)

for Online Excellence in Grant Support

The jury, comprising

Philippe Vanrie, Managing Director of European Business and Innovation Center Network (EBN),
Christian Saublens, Director of European Association of Development Agencies (EURADA)
and
Marcelino Oreja, Member of the European Parliament

judged the site outstanding amongst its European peers based on innovative content, technical excellence, contribution towards developing the Information Society and relevance in the grant application chain.

The Award is organized under the framework of the eContent programme of the European Commission (DG Information Society).

It is a public recognition of the best in European innovation that excels in generating novel ideas for eGovernment and Information Society development, and converting them into operative services.

This European Union award will enhance the recognition of the winner and the services they offer, particularly

- Business innovation
- Contribution to European Development Agencies' mission
- Core participation in the European Business Network
- European Union excellence

The [SEEOne Broadband Community Self Help](#) site provides a support ecosystem and toolkit for Community Broadband Organisations addressing rural areas. It is a method book of how to deliver community broadband from startup and includes a comprehensive grants section. It is recognised as the authoritative knowledge source for wireless-based community broadband.

This award augments [Global Village's](#) European-wide knowledge, support and distribution network for creating next generation businesses using next generation technologies.
